FDESIGN collections are based on the philosophy of slow life and are part of the trend of responsibly chosen products for the home.

They allow you to enjoy the daily benefits of nature, while significantly reducing water consumption. Conscious management of it does not come at the expense of lower functionality or aesthetics.

Consideration of contemporary design, functional and environmental needs is reflected in the FDESIGN brand's offerings.

The products are designed for long-term use, making them a reliable investment, and reducing waste associated with frequent renovations and changes in design.

The lines of products are distinguished by a meticulously refined design that suits contemporary stylistic tastes. At the same time, they remain universal and timeless, skillfully adapting to dynamic trends. These products are offered as complete collections of perfectly matched pieces, making it easy to create a cohesive and harmonious interior.

# Eko, form, function, quality

We focus on high-quality products and everyday comfort, all while respecting the environment.

By choosing our products, you embrace attractive design and full functionality, contributing to a healthier world.

Concern to quality, sustainability and an eco-friendly approach permeates all aspects of our fittings- from the concept, to production and operation. As a responsible manufacturer and distributor, we use natural and recycled materials, including green bags, in our packaging. Using fewer raw materials aligns with the spirit of minimalism and frugality, and the neutral packaging design allows for reuse in the other purposes. Our approach is based on the 3R PRINCIPLE : REDUCE, RECYCLE AND REUSE.

We are guided by the principle of sustainable consumption, ensuring high product quality that guarantees the longevity of faucets and accessories. This commitment is complemented by excellent design qualities, allowing us to offer products that provide long-term comfort and seamlessly adapt to dynamic trends. Our structural and functional elements are distinguished by their exceptional durability, backed by a 7-year guarantee period.

Looking to the future

7 year guarantee

## 7 steps towards a healthier environment

### 1. Long-lasting products

High-quality components supported by a 7-year warranty on critical parts.

### 2. Water and energy saving

Aerators reduce water flow by up to 50%, resulting in lower energy consumption.

### 3. Less lead

We use brass with reduced lead content, even below 2,2%.

### 4. Packaging friendly with environmentally

We use kraft cardboard with minimal printing and recycled film.

### 5. Less chemicals

Our Easy Clean aerators prevent limescale deposits, eliminating the need for cleaning detergents.

### 6. Less plastic

We replaced polypropylene traps with brass models to reduce plastic usage.

### 7. Comfort without stress

In the case of product failure or defect, we respond promptly.

# ARDESIA

Industrial chic

Beauty demands proper presentation, and a compelling approach is through the glamour style, which epitomizes contemporary elegance. This style highlights unique pieces crafted with exquisite jewelry craftsmanship. Glamour embraces dark colors, which gain added sophistication with accents of copper or gold rose. The Ardesia mixer collection embodies these qualities fully, inspired by the velvety black tones of slate stone, captivating its perfection and finesse.

# ZAFFIRO

## The charm of modernism

A modernist bathroom focuses on creating effect on spaciousness and well-organized design. One characteristic of this style is a monochromatic color palette, although uniformity in color does not preclude the addition of an intense accent color. Simple geometric forms are traditional in modernist design, but in today's urban interiors, they often incorporate softer lines. Moderately chosen furnishing are sophisticated yet full of character. A bathroom salon inspired by this style combines contemporary aesthetic sensibilities with timeless appeal. Choosing Zaffiro for such interiors is an ideal solution.

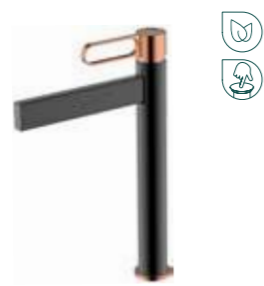

The unique spout design garners constant admiration for users, enhanced by details reminiscent of precious stones that achieve the highest aesthetic qualities through skilled craftsmanship.

# BRINA

## Sparkle of modernity

The Brina collection captivates with the brilliance of light rays peeking through its flawless surface. The elegant chrome plating, reminiscent of gently shimmering ice crystals, alludes to the Italian word "brina" meaning frost. Geometric forms accented by subtly rounded lines evoke durability and reliability. The distinctive "rough edges" break up the massiveness of the faucets, imparting lightness and stylistic coherence to the entire collection. This modern design fits perfectly into industrial interiors that emphasize simple forms and bold aesthetic. The intriguing frost effect adds a unique touch to the room, inviting design experimentation.

# SEPPIA

Noble art déco

If you want to create a bathroom reminiscent of the most luxurious interiors, marble is an essential choice. This noble material lends character and grace, seamlessly integrating in various interior design styles. For a modern, luxurious bathroom, consider marble tiles on both walls and floors. Natural light streaming through a large window enhances the glossy surfaces of the tiles, amplifying their elegance. The Seppia collection in black with rose gold accents is the epitome of luxury in such bathrooms, where the timeless combination of black, white and gold reigns, appealing to those who appreciate classic chic and superior quality.

Subtle grace

Modern style bathrooms may appear modest and even a little austere, but in reality, they are highly sophisticated, elegant and impeccably equipped. They are meticulously designed for optimal functionality, ensuring maximum comfort for the user. Characterized by muted colors such as black, grey, and white, this limited color palette, paired with clean lines, creates a clear and uncluttered interior. Decorative elements are used sparingly, with grey or beige tiles, or tiles mimicking trendy architectural concrete, serving as ideal accents in a modern bathroom. Elegant chrome-plated mixer taps complement the walls and floor.

## Noble vintage

Flats in townhouses exemplify a blend of classic and modern accents seamlessly. With their spacious interiors and high ceilings, they offer limitless possibilities for arrangement. Restored parquet flooring in the bathroom brings back the glamour, while the predominant white color palette enhances the sense of the space and brightness, accentuated by strategically placed mirrors, a freestanding bathtub, a chandelier, wall posters, and fittings from the Lacrima line. Delicate, rounded details on the handles evoke tear droplets, adding a charming vintage touch. The shiny finish provides a contemporary flair.

## Noble vintage

To create a Mediterranean atmosphere even amidst a gloomy backdrop outside, precise interior styling is key. The high ceilings and spacious layout of old townhouses provide an ideal canvas for crafting a classic bath lounge inspired by the South. Incorporating wooden furniture and stone flooring adds a chic touch to the bathroom. Enhance the ambiance with elements like large mirrors and retro-styled ceramics, perfectly complemented by Lacrima mixers. Additional details such as curtains, candlesticks, and chandeliers contribute to a romantic atmosphere.

### Simple exposure module

<b>Code</b>	<b>FDDC01</b>
Display dimensions	Height: 2370mm, Width: 500mm, Depth: 500mm
Range of Mixers, exposed	ZAFFIRO; ARDESIA; LACRIMA; BRNA
Range of Bathroom accessories, exposed	MERIDA; PIAZZA; LACRIMA
Placement	Free-standing
Characteristics	Metal structure made of steel profile, equipped with MDF panels provided with LED lighting system of standing mixers, Upper MDF box with LED illuminated logo, Illuminated panel box, FDESIGN logo The display is provided with a power cable that allows powering to the 220V electrical network
Observations	The exhibition is delivered fully equipped, with all pre-assembled elements The exposure allows a good visualization of the exhibited ranges and finishes

### Simple exposure module for showers

<b>Code</b>	<b>FDDC02</b>
Display dimensions	Height: 2370mm, Width: 500mm, Depth: 500mm
Range of Shower columns, exposed	ANIMA, ORIGIO, TEMPRA, ANIMA Q
Placement	Free-standing
Characteristics	Metal structure made of steel profile, equipped with MDF panels, Upper MDF box with LED illuminated logo, The display is provided with a power cable that allows powering to the 220V electrical network
Observations	The exhibition is delivered fully equipped, with all pre-assembled elements The exposure allows a good visualization of the exhibited ranges and finishes

**Double exposure module**

Code	FDDC03
Display dimensions	Height: 2370mm, Width: 970mm, Depth: 500mm
Range of Mixers, exposed	ZAFFIRO; ARDESIA; LACRIMA; BRNA; MEANDRO; SEPPIA
Range of Bathroom accessories, exposed	MERIDA; PIAZZA; LACRIMA
Placement	Free-standing
Characteristics	Metal structure made of steel profile, equipped with MDF panels provided with LED lighting system of standing mixers, Upper MDF box with LED illuminated logo, Illuminated panel box, FDESIGN logo, The display is provided with a power cable that allows powering to the 220V electrical network
Observations	The exhibition is delivered fully equipped, with all pre-assembled elements The exposure allows a good visualization of the exhibited ranges and finishes

**Exposure module for kitchen mixers**

Code	FDDC04
Display dimensions	Height: 870mm, Width: 440mm, Depth: 440mm
Range of Mixers, exposed	ZAFFIRO; ARDESIA; MEANDRO
Placement	Free-standing
Characteristics	Metal structure made of steel profile, equipped with MDF top for standing mixers, Upper MDF box with LED illuminated logo, The display is provided with a power cable that allows powering to the 220V electrical network
Observations	The exhibition is delivered fully equipped, with all pre-assembled elements The exposure allows a good visualization of the exhibited ranges and finishes

### Desk exposure module for mixers

<b>Code</b>	<b>FDDC05</b>
Display dimensions	Height: 180mm, Width: 400mm, Depth: 300mm
Range of Mixers, exposed	ZAFFIRO
Placement	Counter
Characteristics	MDF shelf board for positioning the mixers on the Plexic supports
Observations	The exhibition is delivered fully equipped, with all pre-assembled elements The exposure allows a good visualization of the exhibited ranges and finishes

### Triple exposure module for shower drains

<b>Code</b>	<b>FDDC07</b>
Display dimensions	Height: 400mm, Width: 950mm, Depth: 400mm
Exposed ranges	KLEOME
Placement	Floor
Characteristics	MDF box for displaying the range of drainage channels
Observations	The exhibition is delivered fully equipped, with all pre-assembled elements The exposure allows a good visualization of the exhibited ranges and finishes

### Exposure module for freestanding mixer

<b>Code</b>	<b>FDDC06</b>
Display dimensions	Height: 180mm, Width: 400mm, Depth: 300mm
Range of Mixers, exposed	LACRIMA
Placement	Free-standing
Characteristics	MDF box for positioning freestanding mixers
Observations	The exhibition is delivered fully equipped, with all pre-assembled elements The exposure allows a good visualization of the exhibited ranges and finishes

# Pictograms and function designations

In order to increase readability and make product information easier to use, the main features and functions of the products are presented in the form of icons.

Warranty period for the product expressed in years. The number placed in this sign informs about the years of warranty for the product.

Anti Twist  
Hoses that have an Anti Twist tip do not twist.

Products with this mark use less water and energy compared to standard models.

Vertical adjustment  
Vertical rod mounting adjustment.

FDESIGN AirMix  
Perlator with additional water aeration system. Allows you to use less water while maintaining the comfort of a generous stream.

Horizontal adjustment  
Adjust the distance of the rod from the wall.

FDESIGN Click  
Hot water control system and full flow control system.

Safe Touch System  
The faucet body does not heat up when using hot water.

Thermostatic faucet  
Hot water lock protects against scalding and ensures a constant water temperature of 38°C.

Pull-out spout  
A pull-out spout increases the convenience of filling tall dishes and allows for precise washing and rinsing.

Easy Clean  
SHOWER handle nozzles and aerators made of plastic from which lime deposits can be easily removed.  
Height 230 mm  
Width 100 mm  
Depth 300 mm

Rotating spout  
The spout rotates 360 degrees.

AIR-IN System  
An aeration system for the SHOWER handle stream, saving water while maintaining the comfort of a generous stream.

Folding spout  
The faucet is designed to be installed in front of a window, the folding spout allows you to open it.

Click-clack stopper  
Products with this icon come with a click-clack stopper, opened and closed by pressing.

Cold Start  
The function allows you to start cold water with a single movement, thus saving energy and increasing comfort whenever you want to quickly fill a vessel with cold water.

Siphon included  
Products equipped with a siphon.

Two sources  
A product that allows you to connect and use two water outlets.

Multiple stream types  
Ability to change the type of stream.

The catalog was printed on certified paper.
